

WHITE PAPER

EXNET24

EXN Token

Email: contact@exnet24.net

Website: <https://exnet24.net>

<https://token.exnet24.net>

- With the growing social trend and increasing human demand for cryptocurrency trading, exchange of technology products created by computer algorithms, built on Block chain platform private and cross-platform smart contracts
- In order not to miss the trend and meet the future needs of people around the world for the buying and selling of digital currencies, and technology products created with computer algorithms, we built EXNET24. Meet the maximum of those needs and EXNET24 invests in building the maximum security platform and acts as an arbitrator to ensure the highest security of transaction contracts. After each successful transaction, the transaction fees will be Exnet24's source of income,
- As the administrator and maintainer of the exnet24.net trading platform, the management, operation and development team have made great strides to prepare for great success in the future, From Love The actual shape of the market and the needs of investors. We decide to issue a token named EXN (EXN token), EXN token will be used to calculate transaction fees on exnet24. net in addition, we have been working to communicate with the community using an airdrop to get everyone acquainted with all the features of the EXN token,
- We also planned to sell the ICO for the first time and will post Listed publicly on reputable exchanges. The proceeds from the ICO sale program will be invested in the security technology platform and utility application on exnet24.net, to meet the maximum demand. partners and customers to cooperate with exnet24.net

- We will use tokens as Exnet24's future e-securities proofs, so capturing the opportunity to own an EXN (EXN) token can be given to the owner (EXN). a huge amount of profit with the management and development team!
- We issue 1,000,000,000 one-time EXN built for circulation on Tron smart Chain's TRC20 platform, as this is a highly applicable, transparent and secure contract as well as many utility applications in the future. Currently the EXN can be stored directly on Tronscan.io and all wallets with an application that supports the storage of Tron smart Chain tokens, we choose the TRC20 platform to build the EXN for this network. With extremely fast turnaround speed, developer Tron smart chain also constantly upgrades and expands utility applications, develops reputable affiliate partners, extremely low circulation fees and many wallet platform developers. Support safe and convenient storage and storage with products built on the Tron smart Chain platform!
- We have also planned to expand the partner ecosystem using EXN as a medium of exchange in Betting Games, Video Games, using EXN as a tool to accumulate business experience points and supermarkets. By earning points to redeem promotional products of equivalent value.

- Our plan to use EXN is as follows, the Operations and Development team holds 30%, at the beginning of the 10% airdrop, equally divided among investors participating in exnet24's trust fund

program, 40% is used for sale ICO, 5% will be divided among the first members to register for a trading account on exchange.exnet24.net, 10% will be used as a market balancing fund, avoiding speculative price manipulation from affecting the value of EXN, 5% will be used as a customer support fund in the bonus payout, staking, lending and charity plan.

- In the next phase we will expand our trading partners using EXN to exchange many high liquidity currency pairs on the most reputable and popular partner exchanges in the market. enhancing the value of EXN preparing for the most
1/ secure wallet

Existing EXN wallets are stored on the available charging platforms of the Tron Smart Chain ecosystem which are very secure and convenient for storage, exchange, and liquidity.

2/ complete protection

You just need to use wallets that integrate Tron Smart Chain platform set your desired security and add EXN token code, so you can store and trade EXN easily.

3/ Analysis and planning

EXN is a token issued by exnet24, you can buy EXN and then store or exchange EXN to increase cash value, you can also use it as a means of payment with exnet24 ecosystem and future payment affiliates

4/ Investment Project

Our goal is to build crypto exchange platform value, storage wallet service, deposit and loan service. In the future, EXN can be used for payment and development to become an electronic share of Exnet24. This you absolutely have the right to hope to make a huge profit from the growth value of EXN, if you quickly hold yourself a certain amount of EXN and keep with you.

5/ Trading Platform

We are building a secure and multifunctional trading platform to protect partner and client assets while accessing the safest trading or storing digital assets at exnet24. Resists cryptocurrency attacks and steals that some other exchanges have encountered in the past, giving customers absolute peace of mind and trust.

6/ Buying and Selling coins

We are in the process of finalizing the contract document so that EXN Token can be listed and traded on top reputable cryptocurrency exchanges right after the end of the EXN token sale plan. Expand our outreach to the community. Help increase the EXN exchange value and increase the intrinsic value of Exnet24 to bring profit to customers in the early stage and meet the maximum liquidity needs

of EXN tokens, while continuing the payment service EXN tokens in the affiliate ecosystem.

7/ Distribution of tokens

Follow what we announce and quickly own a certain amount of EXN Token to be able to enjoy the value that EXN brings in the future.

- We provide a roadmap and detailed plan for each stage of development that has been developed

- important turning point is direct linkage with the banking system and investment fund institutions with the aim of bringing EXN on a reputable and reputable stock exchange in the world,
